## **INTRODUCTION**

*Asiangeos Survey Middle East – UAE (AGSME) was formed in early 2014 as a 51:49 Joint Venture between **Good Way Oil field Services and Helm’s Geo Marines (Malaysia) Sdn Bhd** As the results of the takeover of Geotechnical and geophysical services, (GeoSolutions) in September 2019, AGSME had decided to become independent.*

*In collaboration with National Petroleum Construction Company (NPCC) in Abu Dhabi, AGSME had successfully completed a high-profile, **Offshore Geotechnical and Survey Services contract for Gasco.***

*At present, AGSME is proposing a Drilling Rig (Rock Core) for National Petroleum Construction Company for Offshore **for Pipelines Installation Program, Offshore Mubaraz Field.***

*Since its inception the company has focused on developing an excellent reputation through contracts with oil majors such as NPCC, SAFEEN, NMDC and Total to become a leading player in UAE and the Middle East Onshore offshore geotechnical drilling service provider in the region for soil drilling rigs and assets.*

Asian Geos Survey Middle East LLC

## Equipment

### *Marine Site Investigation Systems*

#### Jumbo Piston Corer

Up to 30m of 4" Jumbo Piston cores (JPC) that can be collected at depths in excess of 2,000m. The JPC utilizes a cantilevered deployment platform over the side of the vessel.

## Equipment

### *Marine Site Investigation Systems*

#### Vibro Core Assembly

Acquires shallow soil samples to six metres sub-seabed, to assist 'calibration' of SBP.

Provides soil data to aid design of cable/pipeline installation

## OFFSHORE PRESSURIZED MODULE

### FEATURE

- Interior main room and airlock room.
- B15 walls and ceiling with mineral wool insulation
- A60 personal door and hatch
- ATEX & IECEx electrical equipment
- CPFG system with air pressure, fire and gas monitoring and alarm function
- Power and internet sockets, lights, loudspeakers
- A60 fire damper
- HVAC system specially for offshore operation to withstand the toughest weather conditions

## CUSTOMIZED MODULE

A Turn-key Solution
